

PROMO ! (17 JUNI – 16 JULI 09)

Senao Engenius ECB-3220

Ushering in the next generation of indoor client bridges with access point functionality is the ECB-3220 by EnGenius. With the quality and functionality expected of an EnGenius product, the ECB-3220 provides up to 400mW of high wireless output power and also adds advanced features such as SNMP management, Wireless Distribution System (WDS), and Power-over-Ethernet (PoE) capability. The ECB-3220 is the perfect solution for any application you might have

- 400mW RF output power for greater range
- Latest security with WEP, WPA/WPA2
- 802.11b/g wireless client bridge/Access Point
- PoE capable for flexible deployment
